Brilliant's MR16 & GU10 LED Globes are an excellent cost efficient and energy saving lighting option. Our 6 watt globes give an output of 480 to 540 lumens, with a 60 degree beam spread to light up your room. Available in either a soft and inviting warm white or crisp and clear cool white.

LED globes are an ideal retro-fit solution as they are highly efficient. With an average life of 10,000 hours, they are long lasting and save you money, because you will buy replacements less often. When turned on, LED's achieve full brightness immediately and radiate very little heat, so they do not cause damage to sensitive objects or fabrics.
