3200 LUMENS

IC-4

| 240V | 40W | SMD LED | 4200K COOL WHITE | 6500K DAY LIGHT | 120° BEAM ANGLE | | CRI >80 | POWER FACTOR 0.95 | INDOOR ONLY | IC-4 | |

LED light panels are a cutting edge solution in the lighting industry and are considered to be a revolutionary replacement for
traditional fluorescent tubes. Our LED light panels use high brightness quality LED chip modules as a light source which consume
less energy and can last up to ten times longer than conventional fluorescent tubes.
Designed for hotels, office,meeting room, home
interior and school classrooms.

FEATURES
- Efficient edgelit design with uniform light output.
- • SMD LED strip technology.
- • Designed to fit standard T-Bar ceilings.
- • High grade aluminium with white powder coated finish.
- • Long lasting up to 30,000 hours.
- • External driver with flex & plug. (Total length 1 metre).
- • Can be covered with thermal insulation and abutted against normally flammable materials.
- • 3 Year Warranty.

APPLICATION AREAS
- Instant start, no re-strike delays.
- Easy-installation for fast retro-fitting.
- Improved illumination quality.

ENERGY SCHEME
